

CardCore

Bring publisher, product and order work into a shared industry workflow.

Who it fits

Greeting-card publishers, giftware distributors and specialist software providers serving creative product businesses.

The commercial opportunity

Give a specialist buyer a foundation for connecting product administration with the people involved in selling and supplying it.

Explore a software asset acquisition or defined licence for the scheduled application and workflows.

Explore the workflow

- A source-backed overview of product and order components alongside role-based demonstration views.
- Request a focused review of the publisher or distributor workflow you want to acquire.

Define what transfers

- Scheduled product, order and selected role-workspace application components.
- Specified interface, data schema and supporting materials.
- Defined software or module rights, with the exact publisher or distributor use case agreed.

Agree the handover

A focused workflow and data-model walkthrough, with a defined adaptation baseline and fixed transition support.

Choose the workflow that adds most value to your existing operation. Accounting, manufacturing and external-platform connections are separately specified.

Discuss CardCore for your market

Tell us which customers you serve and the workflow you would like to explore.
